Description

The Labod TGR110V-7,6/15A-4Q85S is a high-quality industrial automation component designed for reliable performance in demanding applications. Manufactured by Labod, a reputable brand in the field, this part is identified by the exact part number TGR110V-7,6/15A-4Q85S. It is categorized under industrial automation components, making it suitable for various automation systems. Key characteristics include its robust construction, precise engineering, and compatibility with a range of industrial equipment. This component is ideal for professionals seeking durable and efficient solutions for their automation needs.
