

DDLS 170/040.1-1190

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Lenze |
| Catalog number | ddls1700401-1190 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|---------------------------------|-----------|
| Voltage | 12 - 30 V |
| Component Specifications | rs485 |
| Interface Type | profibus |
| Signal Type | 30 |
| Signal Level | 30 V |

Description

The DDLS 170/040.1-1190 is a modern component from LENZE, supporting a voltage range of 12 to 30 V. Equipped with a Profibus interface and RS485 component specification, it offers flexibility in communication. The signal type is 30, allowing for efficient data transmission, while the signal level also stands at 30, ensuring stability and reliability in industrial applications.
