

E94R060T4NRM

Industrial automation components

Manufacturer	Lenze
Catalog number	e94r060t4nrm
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	6 A
Product Type	Drive
Signal Type	480
Signal Level	480 V
Voltage	480 V

Description

The E94R060T4NRM is an advanced drive from LENZE, designed for operation in demanding industrial conditions. The device operates at a voltage of 480V and a current of 6A, ensuring stable and efficient control. Both the signal type and signal level are also 480, making it an ideal solution for applications requiring precise power management. With its reliability and performance, the E94R060T4NRM is an excellent choice for modern industrial automation systems.
