

## PD-25A

Industrial automation components

<b>Manufacturer</b>	Mean Well
<b>Catalog number</b>	pd-25a
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Legacy / discontinued

### Technical specification

<b>Weight</b>	1.41 kgs
<b>Voltage</b>	200 - 230 V
<b>Current</b>	1 A
<b>Frequency</b>	50 - 60 Hz
<b>Signal Type</b>	230
<b>Signal Level</b>	230 V
<b>Relay Specifications</b>	230 VAC

### Description

The Mean Well PD-25A is a 25W dual-output open-frame switching power supply designed for industrial applications. It features a universal AC input range of 85-264V and a DC input range of 120-370V, providing two outputs: 5V at 2.1A and 12V at 1.2A. The power supply offers protections against short circuit, overload, over voltage, and over temperature, ensuring reliable operation in demanding environments. With a compact design measuring 107 x 61 x 28 mm and a weight of 0.15 kg, it is suitable for applications requiring a compact and efficient power solution. The PD-25A operates within a temperature range of -10°C to +60°C and is compliant with international safety standards, including UL, TUV, and EN.
