

A3ACPU-R21

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	a3acpu-r21
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.40 kgs
---------------	----------

Description

A3A-CPU-R21 | Mitsubishi, CPU Module, 5 V dc, 30K Words, 0.4 A, 0.09 μ s, RS232C/RS422 | Brand / Manufacturer: Mitsubishi | product type: CPU Module | supply voltage: 5 V dc | program capacity: 30K Words | power consumption: 0.4 A | CPU processing time: 0.09 μ s | number of digital inputs: 1024 | interface type: RS232C;RS422
