Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Mitsubishi Electric
Part Number	BKO-FA0818H07
Product Type	Teach Panel
Compatibility	Keba KeTop C50 ME 3
Interface	Keba KeTop C50 ME 3

Description

The Mitsubishi Teach Panel R56TB, model BKO-FA0818H07, is a high-performance operator interface designed for industrial automation applications. Manufactured by Mitsubishi Electric, this panel integrates seamlessly with Keba's KeTop C50 ME 3 system, offering a robust solution for controlling and monitoring automated processes.

The panel features a user-friendly interface with a responsive touchscreen, facilitating intuitive operation and programming. Its compact design ensures easy integration into various industrial environments, optimizing workspace utilization.

The R56TB panel is engineered for durability and reliability, capable of withstanding the rigors of industrial settings. It supports advanced communication protocols, enabling efficient data exchange between connected devices.

This makes it an ideal choice for applications requiring precise control and real-time monitoring. Whether used in manufacturing, robotics, or process control, the Mitsubishi Teach Panel R56TB provides a versatile and dependable interface for industrial automation tasks.
