

## CM150DY-24A

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	cm150dy-24a
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

### Technical specification

Voltage	DC
Current	150 A
Power	960
Temperature	150 °C
Product Type	Module
Relay Specifications	24 A
Signal Level	1200 V

### Description

CM150DY-24A | Mitsubishi, IGBT Transistor Module, 1.2 kV, 150 A, 960 W | Brand / Manufacturer: Mitsubishi | product type: IGBT Transistor Module | supply voltage: 1.2 kV | current rating: 150 A | rated voltage: 1.2 kV
