

CM300DY-24A

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	cm300dy-24a
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

No technical specifications available.

Description

CM300DY-24A | Mitsubishi, IGBT Module, 1200 Vces, ±20 Vges, 300 Ic A, 600 Icm A, 300 Ie A, 600 Iem A | Brand / Manufacturer: Mitsubishi | product type: IGBT Module | transistor configuration: series | supply voltage: 1200 Vces;±20 Vges | current rating: 300 Ic A;600 Icm A;300 Ie A;600 Iem A | number of transistors: 2 | minimum operating temperature: -40 °C | maximum working temperature: +150 °C
