

CM75DY-24H

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	cm75dy-24h
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Voltage	1200 V
Product Type	Module
Signal Level	1200 V
Current	75 A

Description

CM75DY-24H | Mitsubishi, IGBT Module, 15 V, 600 A, 1200 V | Brand / Manufacturer: Mitsubishi | product type: IGBT Module | supply voltage: 15 V | current rating: 600 A | rated voltage: 1200 V | minimum operating temperature: -40 °C | maximum working temperature: +150 °C | power classification: 600 W
