Ask about this product

Manufacturer	Mitsubishi
Catalog number	dh-al-30k
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Mitsubishi Electric
Part Number	DH-AL-30K
Product Type	AC Reactor
Rated Capacity	30.0 kW
Compatible Power Supply Unit	MDS-DH-CV-300

Description

The Mitsubishi Electric DH-AL-30K is a high-quality AC reactor designed to enhance the performance and longevity of industrial automation systems. This reactor is specifically engineered for use with Mitsubishi Electric's MDS-DH Series power supply units, providing a stable and reliable power environment for connected equipment.

With a rated capacity of 30.0 kW, the DH-AL-30K effectively mitigates voltage fluctuations and reduces harmonic distortion, ensuring optimal operation of sensitive components. Its robust construction and precise engineering make it an essential component for maintaining the efficiency and reliability of industrial automation processes.

For detailed specifications and compatibility information, refer to the MDS-DH Series Specifications Manual.
