

F920G0T-BBD5-K-E

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	f920got-bbd5-k-e
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	5 V
Signal Type	5
Signal Level	5 V
Memory/Storage	128 KB
Component Specifications	rs232c
Interface Type	rs422
Cable Specification	128 × 64

Description

The F920G0T-BBD5-K-E is an advanced operator panel from MITSUBISHI, designed for operation in demanding industrial environments. The device operates at a voltage of 5V and features a memory capacity of 128. Equipped with RS232C and RS422 interfaces, it allows for flexible communication. The cable specification is 128 × 64, ensuring high signal quality. Both the signal type and signal level are 5, making it an ideal solution for various industrial applications.
