

FR-D720S-100-EC

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	fr-d720s-100-ec
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	200 V
Current	10 A
Horsepower	3 HP
Product Type	Inverter
Signal Level	200 V

Description

The FR-D720S-100-EC inverter from MITSUBISHI is an advanced device designed for efficient motor control. It operates at a voltage of 200V and a current of 10A, allowing it to handle motors with a power of 3 kW. Its signal level is 200, ensuring stable and precise operation in various industrial applications.
