

FX1N-2AD-BD

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	fx1n-2ad-bd
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.06 kgs
Material Number	139421
Business Area Code	F4
Product Category	FPLC
Pricing Group	F4 - FX others
Product Name	FX1N-2AD-BD
Marketing Note [PL]	52.52
Class Code	100100111
Class Description	FA-COM PLC: Other Option
Sub Product Line	Compact PLC
Product Hierarchy Code	IAD208
Product Line	FX1N
Gross Weight (kg)	0.05
Gross Length (cm)	18
Gross Width (cm)	10
Gross Height (cm)	4.5
Customs Tariff Code	85389099
Country of Origin	JP
ABC Classification	C
Product Marketing Description	PLC, FX1N Interface adapter, 2 analogue inputs, 12bit

Description

FX1N-2AD-BD | Mitsubishi Analog Input Expansion Board, 10 V dc, 20 mA, Analog I/O | Brand / Manufacturer: Mitsubishi | product type: Analogue Input Expansion Board | module type: Analogue Input Expansion Board | supply voltage: 0 to 10 V dc | current rating: 4 to 20 mA | for use with: FX1S and FX1N Series | type of contribution: Analogue | type of output: Digital | number of contributions: 2 (Channel)
