

KOJ1E-DT-AC220

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	koj1e-dt-ac220
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Component Specifications	ac220
Product Type	Controller
Industrial Safety	plc
Signal Type	24
Current	0.5 A
Signal Level	24 V
Safety Level	plc

Description

The KOJ1E-DT-AC220 controller from MITSUBISHI is an advanced device designed for industrial applications. It features a current rating of 0.5 and an AC220 component specification, ensuring high performance in various conditions. The device supports a signal level of 24, making it an ideal solution for automation systems. Additionally, the PLC safety level guarantees reliability and protection in challenging industrial environments.
