

MDS-A-SPJ-37

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	mds-a-spj-37
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	200 - 230 V
Power	3.7 kW
Cooling Capacity	3.7 kW
Product Type	Drive
Frequency	50 - 60 Hz
Horsepower	3.7 KW
Signal Type	230
Signal Level	230 V
Relay Specifications	230 VAC

Description

The Mitsubishi MDS-A-SPJ-37 is a high-performance AC spindle drive designed for precision control in industrial automation applications. Manufactured by Mitsubishi, this drive offers a short-time rated output capacity of 3.7 kW, ensuring reliable operation in demanding environments. It operates within a voltage range of 200 to 230 V and supports frequencies between 50 and 60 Hz, making it suitable for various industrial settings. The drive is engineered to deliver consistent performance, enhancing the efficiency and precision of machinery operations. Its robust design and advanced features make it a valuable component for applications requiring precise spindle control.
