

MDS-B-CV-185

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	mds-b-cv-185
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	7.94 kgs
Power Supply Capacity	18.5 kW
Compliance Specifications	Standard
Input Voltage	200-230 V
Output Voltage	DC 270-311 V
Input Current	66 A
Output Current	76 A
Input Frequency	50/60 Hz
Weight	7.94 kg

Description

The Mitsubishi MDS-B-CV-185 is a high-performance AC power supply unit designed for use with Mitsubishi's MDS-B series servo and spindle drives. This unit provides a stable DC output, ensuring optimal performance and reliability in industrial automation applications. With a power supply capacity of 18.5 kW, it is suitable for demanding operations requiring consistent and efficient power delivery. The MDS-B-CV-185 is engineered to meet standard compliance specifications, making it a reliable choice for various industrial settings. Its robust design and advanced features make it an essential component for enhancing the performance and longevity of automation systems.
