

MDS-B-V2-2010

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Mitsubishi |
| Catalog number | mds-b-v2-2010 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------------|---------|
| Current | 21 A |
| Product Type | Drive |
| Voltage | AC |
| Power | 2 |
| Frequency | 50 - 60 |
| Horsepower | 1 |
| Cooling Capacity | 1 |
| Signal Type | 230 |
| Signal Level | 230 V |
| Relay Specifications | 230 VAC |

Description

The MDS-B-V2-2010 is an advanced drive from MITSUBISHI, designed for industrial applications. This device operates on AC voltage and features a current rating of 21 A with a power output of 2 kW. It supports frequency ranges of 50-60 Hz, making it a versatile solution. The drive is optimized for use with motors rated at 1 kW and provides a cooling efficiency of 1. Additionally, both the signal type and signal level are 230 V, facilitating integration with existing systems. The relay specification also stands at 230 V.
