Ask about this product

Manufacturer	Mitsubishi
Catalog number	mds-c1-v1-10-n
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.63 kgs kg
Power Rating	1.0 kW
Compatible Motor Series	HA, HC
Control Mode	High-gain
Dimensions	60 x 120 x 150 mm

Description

The Mitsubishi MDS-C1-V1-10-N is a high-performance AC servo drive unit designed for precise motion control in industrial automation applications. With a rated output of 1.0 kW, it is engineered to drive compatible Mitsubishi HA and HC series servo motors, making it ideal for CNC machine tools and other precision machinery.

This servo drive unit offers advanced features such as high-gain control mode, ensuring optimal performance and responsiveness. Its compact design allows for easy integration into various systems, while its robust construction ensures reliability and longevity in demanding industrial environments.

The MDS-C1-V1-10-N is part of the MDS-C1-N series, known for its versatility and compatibility with a wide range of Mitsubishi servo motors.
