Ask about this product

Manufacturer	Mitsubishi
Catalog number	mds-ch-cv-110
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Mitsubishi
Part Number	MDS-CH-CV-110
Product Type	AC Spindle Drive
Series	MDS-CH
Application Area	Industrial Automation

Description

The Mitsubishi MDS-CH-CV-110 is a high-performance AC spindle drive designed for precision control in industrial automation applications. Manufactured by Mitsubishi Electric, this drive is part of the MDS-CH series, renowned for its reliability and advanced features.

The MDS-CH-CV-110 is engineered to deliver precise spindle control, making it ideal for CNC machines and other equipment requiring accurate rotational speed and torque. Key features include robust protection mechanisms, efficient cooling systems, and compatibility with various Mitsubishi servo motors.

Its compact design allows for easy integration into existing systems, ensuring minimal downtime during upgrades. The drive's user-friendly interface facilitates straightforward setup and operation, while its durable construction ensures long-term performance in demanding industrial environments.

For detailed specifications and installation guidelines, refer to the Mitsubishi Electric MELDAS AC SERVO/SPINDLE MDS-CH SERIES SPECIFICATIONS MANUAL.
