Ask about this product

Manufacturer	Mitsubishi
Catalog number	mds-ch-cv-185
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	3-phase 200–240 VAC
Output Voltage	270–311 VDC
Moc znamionowa	18.5 kW
Dimensions	90 x 380 x 200 mm
Weight	6.5 kg

Description

The Mitsubishi MDS-CH-CV-185 is a high-performance power supply unit designed for the MELDAS CNC system. It serves as the central converter, transforming three-phase AC input into a stable DC output to power servo and spindle amplifiers.

This unit is engineered to deliver 18.5 kW of power, ensuring reliable operation in demanding industrial automation environments. Key features include a compact design, efficient cooling system, and compatibility with Mitsubishi's MELDAS series, making it an ideal choice for enhancing the performance and reliability of CNC machinery.
