

MDS-DH-V2-2020

Industrial automation components

Manufacturer	Mitsubishi
Catalog number	mds-dh-v2-2020
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	2.47 kgs
Voltage	400 V
Current	20 A
Signal Level	400 V
Relay Specifications	20 A
Product Type	Drive

Description

The Mitsubishi MDS-DH-V2-2020 is a dual-axis servo drive unit designed for precise motion control in industrial automation applications. It delivers a nominal current of 20A per axis, with a maximum current of 20A per axis, and operates at a voltage of 400V. The drive unit features a compact design with dimensions of 70 mm in height, 380 mm in length, and 270 mm in width, and weighs 6.00 kg. It is compatible with Mitsubishi's MDS-D series servo motors, offering reliable performance for demanding tasks. The MDS-DH-V2-2020 is suitable for applications requiring precise control and high reliability, such as CNC machine tools and other automated machinery.
