Manufacturer	Mitsubishi
Catalog number	mitsubishi-qx524
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Mitsubishi Electric
Part Number	QX524
Product Type	Video and Communication Circuit Board
Compatible Systems	MELDAS 500-series, Mazak MAZATROL M-Plus, Mazak MAZATROL T-Plus
Display Interface	14-inch color monitor
Communication Interfaces	Operation board, Spindle encoder

Description

The Mitsubishi QX524 is a specialized video and communication circuit board designed for Mitsubishi's MELDAS 500-series CNC control systems, including the M-Plus and T-Plus models. This board, identified by part number BN634A636G51, facilitates video output and display functions for 14-inch color monitors, ensuring seamless integration within CNC machine tools.

It also supports communication interfaces for operation boards and spindle encoders, enhancing the overall functionality of the control system. Compatible with Mazak MAZATROL M-Plus and T-Plus controls, the QX524 is essential for maintaining optimal performance in automated machining environments.
