MITSUBISHI-R56TB

Industrial automation components

Add to quote | Ask about this product

Manufacturer	Mitsubishi
Catalog number	mitsubishi-r56tb
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Mitsubishi Electric
Part Number	BKO-FA0818H07
Interface	KeTop C50 ME 3
Revision	REV:G
Product Type	Teach Panel
Product Family	R56TB
Application Area	Industrial Automation
Touchscreen	KeTop C50 ME 3

Description

The Mitsubishi R56TB Teach Panel is a specialized human-machine interface (HMI) designed for seamless interaction with Mitsubishi Electric's robotic systems. This model, identified by part number BKO-FA0818H07, features the KeTop C50 ME 3 interface and is labeled as REV:G, indicating its revision status.

The panel serves as a critical component in programming and controlling Mitsubishi robots, offering intuitive touch controls and a user-friendly interface. Its robust design ensures reliable performance in industrial environments, making it an essential tool for operators seeking efficient robot management. For comprehensive operational guidance, refer to the R56TB/R57TB Instruction Manual.
