MR3-V34

Industrial automation components

Add to quote | Ask about this product

Manufacturer	Mitsubishi
Catalog number	mr3-v34
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Dimensions	12.7 cm x 22.9 cm x 17.8 cm
Weight	0.3 kg
Communication System	Optical communication system
Maximum Wiring Distance	50 meters m
Brand	Mitsubishi
Part Number	MR3-V34
Product Type	AC Servo Drive
Product Series	MELSERVO-J3
Application Area	Industrial Automation

Description

The Mitsubishi MR3-V34 is a versatile AC servo amplifier designed for high-performance motion control applications. Part of the MELSERVO-J3 series, it offers enhanced functionality and improved communication capabilities compared to previous models.

The MR3-V34 connects seamlessly to servo system controllers via the high-speed synchronous network, enabling precise position data reading and efficient operation. Its advanced optical communication system significantly enhances communication speed and noise tolerance, with a maximum wiring distance of 50 meters.

This servo amplifier is ideal for applications requiring precise motion control and reliable communication in industrial automation systems.
