

C40K-CDR-A

Industrial automation components

Manufacturer	Omron
Catalog number	c40k-cdr-a
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Frequency	50 - 60 Hz
Temperature	40
Product Type	Controller
Signal Level	240 V
Voltage	100 - 240 V
Signal Type	240
Relay Specifications	240 VAC

Description

The C40K-CDR-A is an advanced controller from OMRON, designed to operate within a wide voltage range of 100 to 240 V and a frequency of 50-60 Hz. The device features high temperature resistance, reaching a maximum of 40°C. It supports signal levels of 240, making it an ideal solution for applications requiring precise signal management. The relay specification also stands at 240, ensuring reliability and stability in challenging industrial conditions.
