

## CJ1H-CPU65H

Industrial automation components

<b>Manufacturer</b>	Omron
<b>Catalog number</b>	cj1hcpu65h
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Industrial System</b>	cpu65h
<b>Temperature</b>	60

### Description

The CJ1H-CPU65H is an advanced control processor from OMRON, designed for operation in harsh industrial environments. Its maximum operating temperature is 60°C, making it an ideal solution for applications requiring high reliability. The CPU65H industrial system offers flexibility and efficiency in managing production processes.
