Dimensions	323 mm x 241 mm x 42 mm
Enclosure Material	Black
Ports	2 x RS-232C, 1 x USB
IP Rating	IP65
Discontinued	Yes

Description

The Omron NS10-TV00B is a 10.4-inch TFT color LCD operator interface from Omron's NS Series, designed for industrial automation applications. It features a resolution of 640 × 480 pixels, providing clear and vibrant visual feedback. The device operates on a 24 VDC power supply and is housed in a black enclosure, measuring approximately 323 mm x 241 mm x 42 mm. It offers two RS-232C ports and one USB port for versatile connectivity. The NS10-TV00B is rated IP65, ensuring resistance to dust and water ingress, making it suitable for demanding industrial environments. This model has been discontinued and is no longer manufactured, with its end-of-life date marked as March 31, 2022. However, it remains a repairable unit, extending its usability in existing systems. For detailed specifications and repair services, refer to Omron's official documentation and authorized service providers.
