

NS8-TV00B-V1

Industrial automation components

Manufacturer	Omron
Catalog number	ns8-tv00b-v1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Cable Specification	640 × 480
Voltage	24 V
Signal Type	24
Signal Level	24 V

Description

The NS8-TV00B-V1 is an advanced operator panel from OMRON, designed for operation in demanding industrial environments. The device operates at a voltage of 24V, ensuring stability and reliability in automation applications. Featuring a display resolution of 640 × 480, it allows for clear and readable data presentation. Both the signal type and signal level are also 24, making it an ideal solution for integration with various control systems.
