

NT30-ST131B-E

Industrial automation components

Manufacturer	Omron
Catalog number	nt30-st131b-e
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Cable Specification	320 × 240
Current	422 A
Power	15 W
Component Specifications	st131b
Signal Type	24
Signal Level	24 V
Relay Specifications	422 A

Description

The NT30-ST131B-E is an advanced operator panel from OMRON, featuring a power rating of 15 W and a current of 422 mA. Equipped with the st131b component, it delivers high signal quality at a level of 24, making it an ideal solution for industrial applications. The cable specification is 320 × 240, ensuring adequate performance and reliability in challenging conditions. Additionally, the relay specification of 422 guarantees stable operation.
