

MBDLT25SF

Industrial automation components

| | |
|-----------------------|----------------------------------|
| Manufacturer | Panasonic |
| Catalog number | mbdlt25sf |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------------|-------|
| Current | 12 A |
| Signal Type | 200 |
| Signal Level | 200 V |
| Relay Specifications | 12 A |
| Voltage | 200 V |
| Fire Rating | a6 |
| Product Type | Drive |

Description

The MBDLT25SF is an advanced drive from PANASONIC, designed for operation in demanding industrial conditions. It features a voltage of 200V and a current of 12A, ensuring high performance. The product meets fire resistance class a6, making it suitable for use in environments with increased risk. The signal type and signal level are both 200, and the relay specification is 12, ensuring reliability and precision in operation.
