

S-PS

Industrial automation components

Manufacturer	Panasonic
Catalog number	s-ps
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Panasonic Electric Works
Part Number	S-PS
Product Type	Relay Socket
Series	S Series
Number of Positions	12 positions
Mounting Type	Through Hole
Termination Style	PC Pin

Description

The Panasonic S-PS is a 12-position relay socket designed for through-hole mounting, specifically tailored for the S Series relays. Manufactured by Panasonic Electric Works, this socket ensures secure and reliable connections for S Series relays, facilitating efficient integration into various electronic systems. Its through-hole mounting design allows for straightforward PCB integration, making it suitable for applications requiring robust and dependable relay connections. The S-PS socket is an essential component for enhancing the performance and reliability of relay-based circuits.
