Manufacturer	Parker
Catalog number	ps120001-050-000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Parker
Part Number	PS120001-050-000
Product Type	Pneumatic Fitting
Application Area	Industrial Automation
Category	Pneumatic Fittings
Material	Durable Materials

Description

The Parker PS120001-050-000 is a pneumatic fitting designed for industrial automation applications. Manufactured by Parker, a leading provider of motion and control technologies, this component ensures reliable performance in pneumatic systems.

Its compact design allows for easy integration into various setups, making it suitable for applications requiring precise air control. The fitting is constructed with durable materials to withstand the demands of industrial environments, ensuring longevity and consistent operation.

Its compatibility with standard pneumatic components facilitates seamless integration into existing systems, enhancing overall efficiency and productivity. This product is ideal for industries such as manufacturing, automation, and process control, where efficient and reliable pneumatic connections are essential.
