## Technical specification

| | |
|---|---|
| **Product Type** | INTERBUS-ST Digital Output Module |
| **Number of Outputs** | 32 outputs |
| **Napięcie zasilania** | 24 V DC |
| **Connection Method** | 2-wire screw connection |
| **Mounting Type** | DIN rail |

## Description

The Phoenix Contact 2754325 is an INTERBUS-ST digital output module designed for industrial automation applications. This module features 32 digital outputs, each capable of handling up to 500 mA, and operates at a supply voltage of 24 V DC, with a permissible range from 20 V DC to 30 V DC, including ripple.

It employs a 2-wire screw connection method and offers electronic short-circuit protection for each output channel. The module is mounted on a DIN rail and has an ingress protection rating of IP20, making it suitable for various industrial environments.

With an operating temperature range of 0°C to 55°C, it ensures reliable performance in diverse conditions. The 2754325 module is part of Phoenix Contact's Inline series, known for its modular design and ease of integration into existing systems.
