Ask about this product

Manufacturer	Phoenix Contact
Catalog number	2891987
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Unmanaged Industrial Ethernet Switch
Number of Ports	8 ports
Copper Ports	6 ports
Fiber Ports	2 ports
Operating Temperature Range	-25°C to 75°C
Housing Material	Aluminum
Typ montażu	DIN Rail
Power Supply Voltage	24 V DC (redundant)
Voltage Range	9 V DC to 32 V DC
Diagnostic LEDs	Supply voltage, Link status/data transmission

Description

The Phoenix Contact 2891987 is an industrial Ethernet switch designed for robust network connectivity in demanding environments. Part of the FL SWITCH SFN series, this unmanaged switch features six RJ45 ports supporting 10/100/1000 Mbps speeds and two single-mode SC-D fiber optic ports for high-range connectivity up to 10 kilometers.

It operates within a wide temperature range of -25°C to 75°C, ensuring reliable performance in various industrial settings. The device is housed in an aluminum enclosure suitable for DIN rail mounting, measuring 50 mm in width, 120 mm in height, and 70 mm in depth.
