Manufacturer	Phoenix Contact
Catalog number	bt03am741030
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Processor	Arm9™, 200 MHz
Operating System	Windows® CE 5.0
RAM	32 MB SDRAM
Flash Memory	16 MB
Display	3-inch FSTN, 160 x 80 pixels

Description

The Phoenix Contact BT03AM/741030 is a versatile operator panel designed for industrial automation applications. Featuring a 3-inch FSTN display with a resolution of 160 x 80 pixels, it offers clear visual feedback for operators.

Powered by an Arm9™ processor running at 200 MHz, the panel operates on Windows® CE 5.0, ensuring compatibility with a wide range of industrial software. It includes 32 MB of SDRAM and 16 MB of flash memory for reliable performance.

The membrane keypad provides intuitive control, while the CCFL backlighting ensures visibility in various lighting conditions. Connectivity options include two USB Host 2.0 ports, one Ethernet port (10/100 Mbps) with an RJ45 connector, and a CAN bus system, facilitating seamless integration into existing automation networks.

With an IP65 front panel rating, the BT03AM/741030 is built to withstand harsh industrial environments, operating within a temperature range of 0°C to 50°C and a humidity range of 10% to 90% (non-condensing).

Its compact design allows for easy installation, making it an ideal choice for enhancing operator interfaces in industrial settings.
