Manufacturer	Pro-Face
Catalog number	3280035-1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Display Size	7.5 inches
Display Type	TFT Color LCD
Resolution	640 x 480 pixels
Communication Ports	Ethernet, RS-232C, RS-485, USB
Operating Temperature	0°C to 50°C
Protection Rating (Front)	IP65
Protection Rating (Back)	IP20

Description

The Pro-Face 3280035-1 is a 7.5-inch color TFT Human-Machine Interface (HMI) designed for industrial automation applications. Manufactured by Pro-Face, a leader in industrial HMI solutions, this model offers a high-resolution touchscreen interface for seamless control and monitoring of automation systems.

It is ideal for industries such as manufacturing, process control, energy, and logistics, providing operators with a clear, interactive interface to monitor and control machinery and processes. Key features include a 7.5-inch TFT color LCD display with a resolution of 640 x 480 pixels, versatile communication options including Ethernet, RS-232C, RS-485, and USB, and a wide operating temperature range of 0°C to 50°C (32°F to 122°F).

The device also offers protection features such as an IP65 rating (front) and IP20 rating (back), ensuring durability in demanding industrial environments. The Pro-Face 3280035-1 is an essential component for enhancing operational efficiency and ensuring reliable human-machine interaction in industrial settings.
