

AGP3200-A1-D24

Industrial automation components

Manufacturer	Pro-Face
Catalog number	agp3200a1d24
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Component Specifications	agp3200
Signal Level	24 V
Voltage	24 V
Signal Type	24

Description

The AGP3200-A1-D24 is an advanced component designed for reliable performance in industrial applications, operating at a voltage of 24V. Its AGP3200 component specification ensures high signal quality, making it an ideal solution for systems requiring stability and precision. The signal type and signal level are both 24, further emphasizing its versatility in various operational environments.
