

VT3006-37

Industrial automation components

Manufacturer	Rexroth
Catalog number	vt-3006-37
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Current	2.5 A
Signal Level	24 V
Component Specifications	vt3006
Signal Type	24

Description

The VT3006-37 is an advanced component from REXROTH, designed to operate at a voltage of 24V and a current of 2.5A. Its component specification vt3006 and signal type of 24 ensure high performance and reliability in industrial applications. The signal level of 24 guarantees precise operation under various operating conditions.
