Ask about this product

Manufacturer	Rittal
Catalog number	sk3303500
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Signal Level	230 V
Operating Voltage	230 V AC
Cooling Capacity	0.52 kW (1,774 BTU/h) at 50 Hz, 0.6 kW (2,047 BTU/h) at 60 Hz
Dimensions	280 mm (W) x 550 mm (H) x 210 mm (D)
Material	Sheet steel with RAL 7035 light gray finish
Temperature Controller	e-Comfort Controller

Description

The Rittal SK 3303500 is a wall-mounted cooling unit from the Blue e series, designed to efficiently regulate temperatures within industrial enclosures. Operating at a voltage of 230 V AC, it delivers a cooling capacity of 0.52 kW (1,774 BTU/h) at 50 Hz and 0.6 kW (2,047 BTU/h) at 60 Hz, ensuring optimal performance across various environments.

The unit features a compact design with dimensions of 280 mm in width, 550 mm in height, and 210 mm in depth, making it suitable for installations where space is limited. Constructed from durable sheet steel with a RAL 7035 light gray finish, it offers both aesthetic appeal and robust protection.

The integrated e-Comfort Controller allows for precise temperature management, enhancing energy efficiency and operational reliability. Additionally, the RiNano-coated condenser enhances the unit's resistance to environmental factors, extending its service life.

This cooling unit is ideal for applications requiring consistent temperature control, such as in control cabinets, electrical enclosures, and other sensitive equipment housed in industrial settings.
