Manufacturer	Schneider Electric
Catalog number	4425
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Connection Transfer Assembly
Compatibility	NSX250 Circuit Breaker
Busbar Rating	Up to 630 A Amperes
Distribution Type	Downstream
Panel Integration	PrismaSeT P

Description

The Schneider Electric LVS04425 is a connection transfer assembly designed for the fixed horizontal installation of the NSX250 circuit breaker with a toggle mechanism. This assembly facilitates seamless integration within the PrismaSeT P distribution board, ensuring efficient power distribution and enhanced system reliability. Key features include a compact and insulated multi-point distribution busbar capable of handling currents up to 630 A, providing optimal protection and performance. The assembly is engineered for downstream distribution, allowing devices to be powered anywhere within the panel, thereby offering flexibility in system design. Additionally, the LVS04425 is compatible with PowerTag NSX, enabling advanced monitoring and control capabilities. This product is ideal for industrial and commercial applications where robust and reliable power distribution is essential.
