

A9D31610

Industrial automation components

Manufacturer	Schneider Electric
Catalog number	a9d31610
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Current	10 A
Signal Type	240
Signal Level	240 V
Relay Specifications	240 VAC
Voltage	240 V
Frequency	50 Hz

Description

The A9D31610 is a relay from Schneider Electric, designed for operation in systems with a voltage of 240 V and a current of 10 A. The device operates at a frequency of 50 Hz, making it an ideal solution for standard industrial applications. Both the signal type and signal level are also 240, ensuring consistency in operation. This relay is characterized by high reliability and efficiency, making it a suitable choice for various applications in industrial automation.
