Ask about this product

Manufacturer	Schneider Electric
Catalog number	atv310hu22n4a
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Input Voltage	380–460 V
Horsepower	2.2 kW
Product Series	Altivar 310 –
Dimensions	105 x 143 x 151 mm
Weight	1.1 kg

Description

The Schneider Electric ATV310HU22N4A is a variable speed drive designed for controlling the speed of asynchronous motors in industrial applications. Operating within a three-phase voltage range of 380 to 460 V, it delivers a motor power of 2.2 kW (3 hp), making it suitable for various machinery requiring precise speed control. This drive is part of Schneider Electric's Altivar 310 series, known for their reliability and efficiency in material handling, packaging, and textile machinery. Key features include an integrated fan for cooling, a Modbus communication port for seamless integration, and a compact design measuring 105 mm in width, 143 mm in height, and 151 mm in depth, with a weight of 1.1 kg. The ATV310HU22N4A is engineered to enhance operational efficiency and extend the lifespan of connected equipment by providing smooth and precise motor control.
