Manufacturer	Schneider Electric
Catalog number	atv310hu40n4a
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Power Rating	5.5 kW (7.5 HP)
Supply Voltage	380 to 460 V
Number of Phases	3 phase
Product Type	Variable Speed Drive
Brand	Schneider Electric

Description

The Schneider Electric ATV310HU40N4A is a variable speed drive designed for three-phase applications, offering a motor power output of 5.5 kW (7.5 HP) and operating within a supply voltage range of 380 to 460 V. This drive is engineered to provide precise control over motor speed, enhancing the efficiency and performance of industrial machinery. Its robust design ensures reliable operation in demanding environments, making it suitable for various applications requiring variable speed control. The ATV310HU40N4A is part of Schneider Electric's Altivar 310 series, known for their advanced features and user-friendly interfaces. This model is ideal for industries such as material handling, packaging, and textiles, where precise motor control is essential for optimal performance.
