

B3810

Industrial automation components

Manufacturer	Schneider Electric
Catalog number	b3810
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Power	20 W
Frequency	50 - 60 Hz
Product Type	Controller
Signal Level	24 V
Relay Specifications	24 VAC
Voltage	24 V
Current	3 A
Signal Type	24

Description

The B3810 is an advanced controller from Schneider Electric, designed for operation in 24V power systems. It offers a current of 3A and a power output of 20W, making it an ideal solution for applications requiring reliable control. The device operates within a frequency range of 50-60 Hz, providing flexibility in various industrial environments. The signal type and signal level are both 24, allowing for easy integration with other system components. The relay specification is also based on 24V, ensuring consistency in operation.
