Manufacturer	Schneider Electric
Catalog number	blv14hd16b400
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Schneider Electric
Part Number	BLV14HD16B400
Product Type	Contactor
Product Family	TeSys B
Application Area	Industrial Automation

Description

The Schneider Electric BLV14HD16B400 is a high-performance industrial automation component designed for demanding applications. As part of Schneider Electric's TeSys B series, this contactor offers reliable performance and durability. It is engineered to handle high inrush currents, making it suitable for controlling motors and other inductive loads. The contactor features a robust design with a high breaking capacity, ensuring safe operation under various conditions. Its compact size allows for easy integration into control panels, optimizing space utilization. The BLV14HD16B400 is ideal for use in machinery, HVAC systems, and other industrial equipment requiring efficient and dependable switching solutions.
