### Description

The CA3KN22FD relay from Schneider Electric is an advanced device with an operating current of 10 A. Designed for industrial applications, it features a signal type of 600 and a signal level of 600, ensuring high reliability and precision in operation. The relay specification also stands at 600, making it an ideal solution for various automation applications. Its robust construction and performance make it a trustworthy product in demanding industrial environments.
