

LMC20

Industrial automation components

Manufacturer	Schneider Electric
Catalog number	lmc20
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Voltage	24 V
Current	0.4 A
Signal Level	24 V
Interface Type	ethernet
Product Type	Controller
Signal Type	24

Description

The LMC20 is an advanced controller from Schneider Electric, designed for use in automation systems. The device operates at a voltage of 24V and a current of 0.4A, ensuring stable power supply. It features an ethernet interface, allowing for easy integration with other systems. The signal type and signal level are both 24, making it an ideal solution for applications requiring precise control.
