Ask about this product

Manufacturer	Schneider Electric
Catalog number	lv847600
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Schneider Electric
Part Number	LV847600
Product Type	MicroLogic 2.0X Control Unit
Application Area	Industrial Automation
Rated Operational Voltage	690 V AC
Operating Frequency	50/60 Hz
Protection Functions	Instantaneous Short-Circuit (ANSI 50), Overload (ANSI 49)

Description

The Schneider Electric LV847600 is a MicroLogic 2.0X control unit designed for MasterPact MTZ circuit breakers, offering advanced protection, monitoring, and control functionalities. This unit is compatible with MasterPact MTZ1, MTZ2, and MTZ3 circuit breakers, providing flexibility across various applications. It supports a rated operational voltage of up to 690 V AC and operates within a frequency range of 50/60 Hz, ensuring reliable performance in diverse industrial environments. The electronic trip unit offers protection functions including instantaneous short-circuit protection (ANSI 50) and overload protection (ANSI 49), with adjustable settings to accommodate different operational requirements. The unit is designed for easy integration and maintenance, featuring a user-friendly interface and comprehensive documentation to assist in setup and troubleshooting. Its compact design allows for efficient use of panel space, making it suitable for installations where space optimization is crucial. The LV847600 is engineered to meet international standards, ensuring compliance and safety in industrial applications. Its robust construction and high-quality components contribute to its durability and long service life, making it a dependable choice for industrial automation systems.
