Ask about this product

Manufacturer	Schneider Electric
Catalog number	ns800na
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Four-pole switch-disconnector
Rated Current	800A
Number of Poles	4
Rated Insulation Voltage	800V AC V
Rated Impulse Withstand Voltage	8kV
Network Frequency	50/60 Hz
Compliance Standard	IEC 60947-3
Dimensions	327 mm x 280 mm x 147 mm
Mechanical Life Expectancy	10,000 cycles
Electrical Life Expectancy	2,000 cycles at 440V AC 50/60 Hz

Description

The Schneider Electric NS800NA is a four-pole, 800A switch-disconnector designed for electrical distribution and protection. Part of the ComPacT NS series, it offers reliable isolation and control for industrial applications. Key features include a rated insulation voltage of 800V AC and a rated impulse withstand voltage of 8kV, ensuring robust performance in demanding environments. The device is suitable for use in networks operating at 50/60 Hz and is compliant with IEC 60947-3 standards, confirming its suitability for isolation purposes. Its compact design, with dimensions of 327 mm in width, 280 mm in height, and 147 mm in depth, facilitates easy integration into various electrical systems. The NS800NA is engineered for durability, with a mechanical life expectancy of 10,000 cycles and an electrical life expectancy of 2,000 cycles at 440V AC 50/60 Hz. This makes it a dependable

choice for professionals seeking efficient and long-lasting solutions for electrical distribution and protection.
