

TM200CE40T

Industrial automation components

Manufacturer	Schneider Electric
Catalog number	tm200ce40t
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Interface Type	ethernet
Product Type	Controller
Signal Level	24 V
Frequency	50 - 60
Signal Type	24

Description

The TM200CE40T controller from Schneider Electric is a modern device operating within a frequency range of 50-60 Hz. It features an ethernet interface, allowing for easy integration into automation systems. The signal type and signal level are both 24, making it suitable for applications requiring precise control. Its design ensures reliability and efficiency in various industrial applications.
